PRINCIPAL EDITOR: M. H. HEY

EDITORS: W. J. FRENCH, P. HENDERSON, B. E. LEAKE,
W. S. MACKENZIE, J. B. WRIGHT

Volume 40

(Nos. 309–316, 1975–1976)

THE MINERALOGICAL SOCIETY

41 QUEEN'S GATE, LONDON S.W.7

1976

ERRATA

VOLUME 20

page 444, entry for Akrochordite: *for* $Mn_3As_2O_8.MnOH.MgOH.5H_2O$ *read* $Mn_3As_2O_8.Mn(OH)_2.Mg(OH)_2.5H_2O$

VOLUME 22

page 615, entry for Ammonioborite: *for* Laderello *read* Lardarello

VOLUME 28

page 726, entry for Chrome-magnetite: *for* iskulite *read* ishkulite
page 730, entry for Heikkolite: *for* J. Harada *read* Z. Harada

VOLUME 30

page 727, entry for Alumogel: *for* kiachite *read* kliachite
page 728, entry for Arsenosulvanite: *for* Mikkeev *read* Mikheev

VOLUME 33

page 1127, entry for Argento-Perrylite: *for* 1593 *read* 1952

VOLUME 35

page 1135, entry for Hollingworthite: *for* Fortscher *read* Fortschr.
page 1128, entry for Berndtite: *for* Serro *read* Cerro
page 1144, entry for Mangan-Arfvedsonit: *replace this entry by* **Manganarfvedsonite**. W. A. Deer, R. A. Howie, and J. Zussman, 1963. *Rock-forming minerals*, **2**, *369*. Synoynm of juddite.

VOLUME 36

page 1151, line 4: *for* S. E. Fedorov *read* E. S. Fedorov

VOLUME 37

page 955, entry for Aromite: *for* 1900 *read* 1890
page 956, entry for Cuprostibite: *for* Cu_3Sb_2 *read* 2[Cu_2Sb] with some Tl

VOLUME 38

page 104, *delete lines 17 and 18* (Baryte, . . . schwerspath) *and enter* Azurite, not chessylite
page 105, insert after line 3: Baryte, barite, barytine, barytite, or schwerspath *and in R.H. column, after line 2, insert:* Szájbelyite or ascharite

VOLUME 39

page 903, line 9 of text: *for* are not be found *read* are not to be found
page 927, entry for Solongoite: *for* Zap. 113 *read* Zap. 103
page 942, after line 37 (McCall) insert: McConnell (D.), Are vashegyite and kingite hydrous aluminium phyllophosphates with kaolinite-type structures?, 902

VOLUME 40

page 240, Table I: *for* Total 99·77 *read* Total 99·82
page 422, footnote 2 to Table I: *for* Skinkiura *read* Shinkiura
page 449, line 6: *for* $R = \sum\{|F_{obs}|-|F_{calc}|\}/\sum|F_{obs}|$ *read* $R = \sum|F_{obs}-F_{calc}|/\sum|F_{obs}|$
page 451, line 16: *for* $Mg_4^{2+}Ni_2^{2+}Fe_3^{3+}(OH)_{16}CO_3.4H_2O$ *read* $Mg_4^{2+}Ni_2^{2+}Fe_2^{3+}(OH)_{16}CO_3.4H_2O$
page 481, line 15 of text: *delete* MgO 0·74 % (*duplicated*)
page 634, line 3 from bottom; *after* Tables V and VI, *insert*: For pure helvine from Butte (R11124), $a = 8{\cdot}2937 \pm 0{\cdot}0004$ Å, and for pure genthelvite from Mt. St. Hilaire (127205), $a = 8{\cdot}1206 \pm 0{\cdot}0004$ Å.
page 808, Table III, columns 12, 13, 14; *for* Ac 7·9, 4·8, 12·1 *read* Ac 5·1, 7·9, 4·8
page 896, Table I, last line but one; *for* Leninsula *read* Peninsula

CONTENTS

Errata *page* ii

[NO. 309, MARCH 1975]

PETE J. DUNN and ROLAND C. ROUSE: Wroewolfeite, a new copper sulphate hydroxide hydrate 1

G. D. BORLEY and P. SUDDABY: Stressed pyroxenite nodules from the Jagersfontein kimberlite 6

ARYEH ERVIN SHIMRON: Petrogenesis of the Tarr albitite–carbonatite complex, Sinai peninsula 13

K. A. RODGERS: Lower Tertiary basalts from southern New Caledonia 25

C. B. DISSANAYAKE and E. A. VINCENT: Mercury in rocks and minerals of the Skaergaard intrusion, East Greenland 33

S. RAHMAN: Some aluminous clinopyroxenes from Vesuvius and Monte Somma, Italy 43

ZULIFQAR AHMAD and SHAFEEQ AHMED: Garnets from the Upper Swat Hornblendic Group, Swat, Pakistan 53

IAN PARSONS: High-temperature homogenization behaviour of some sodic microperthites 59

E. H. NICKEL and P. J. BRIDGE: A garnierite with a high nickel content from Western Australia 65

J. KONTA and L. MRÁZ: Volatility of oxides from silicate melt and the origin of moldavites 70

C. S. HOGG and R. E. MEADS: A Mössbauer study of thermal decomposition of biotites 79

C. S. HOGG, P. J. MALDEN, and R. E. MEADS: Identification of iron-containing impurities in natural kaolinites using the Mössbauer effect 89

M. TARKIAN, E. F. STUMPFL, and H. MATTHIES: A new miniphotometer for teaching and routine work in ore microscopy 97

Book reviews 104

[NO. 310, JUNE 1975]

G. CLIFF, J. A. GARD, G. W. LORIMER, and H. F. W. TAYLOR: Tacharanite 113

SIDNEY A. WILLIAMS and RICHARD V. GAINES: Carlfriesite, $H_4Ca(TeO_3)_3$, a new mineral from Moctezuma, Sonora, Mexico 127

L. FANFANI, A. NUNZI, P. F. ZANAZZI, A. R. ZANZARI, and C. SABELLI: The crystal structure of schairerite and its relationship to sulphohalite 131

G. W. BRINDLEY and JEFFERSON V. DE SOUZA: Nickel-containing montmorillonites and chlorites from Brazil, with remarks on schuchardtite 141

R. HUTCHISON, A. L. CHAMBERS, D. K. PAUL, and P. G. HARRIS: Chemical variation among French ultramafic xenoliths—evidence for a heterogeneous upper mantle 153

WERNER SCHREYER and KURT ABRAHAM: Peraluminous sapphirine as a metastable reaction product in kyanite–gedrite–talc schist from Sar e Sang, Afghanistan 171

PAUL R. HAMLYN: Chromite alteration in the Panton Sill, East Kimberley region, Western Australia 181

J. B. WRIGHT: Anorthosite—first occurrence in Nigeria and relevance to Younger Granite genesis 193

L. HELLER-KALLAI, SH. YARIV, and S. GROSS: Hydroxyl-stretching frequencies of serpentine minerals 197

JOHN F. RILEY: A nickel-bearing aluminium serpentine (septechlorite) from Western Australia 200

KUNIAKI KIHARA, TAKEO MATSUMOTO, and SHOHEI BANNO: Existence of 3T muscovite in low-grade metamorphic rocks of the Sanbagawa metamorphic belt, Japan 202

H. G. Golding and A. S. Ray: Epidote minerals in ophiolites near Coolac, N.S.W., Australia 205
E. Passaglia and D. Pongiluppi: Barrerite, a new natural zeolite 208
Book reviews 209

[NO. 311, SEPTEMBER 1975]

S. A. Williams: Xocomecatlite, $Cu_3TeO_4(OH)_4$, and tlalocite, $Cu_{10}Zn_6(TeO_3)(TeO_4)_2Cl(OH)_{25}.27H_2O$, two new minerals from Moctezuma, Sonora, Mexico 221
Sidney A. Williams and Richard A. Bideaux: Creaseyite, $Cu_2Pb_2(Fe,Al)_2Si_5O_{17}.6H_2O$, a new mineral from Arizona and Sonora 227
Vassil At. Atanasov: Argentian mercurian tetrahedrite, a new variety, from the Chiprovtsi ore deposit, western Stara-Planina mountains, Bulgaria 233
Mizuhiko Akizuki, Hiroshi Konno, Noriyosji Yamauchi, and Ichiro Sunagawa: Thermal transformation of lepidomelane 239
G. A. Challis: Native nickel from the Jerry River, South Westland, New Zealand, an example of natural refining 247
P. S. Goldberg and Y. Nathan: The phosphate mineralogy of et-Tabun cave, Mount Carmel, Israel 253
C. Kent Brooks and R. G. Platt: Kaersutite-bearing gabbroic intrusions and the late dike swarm of Kangerdlugssuaq, East Greenland 259
Paul Henderson: Geochemical indicator of the efficiency of fractionation of the Skaergaard intrusion, East Greenland 285
A. Hall: Regional variation in the crustal abundance of minor elements: evidence from the granites of Sardinia 293
R. H. Vernon: Microstructural interpretation of some fibrolitic sillimanite aggregates 303
T. T. Chen and Luke L. Y. Chang: High Mg-smithsonite from Broken Hill, New South Wales, Australia 307
A. J. Kemp and B. E. Leake: Two hydrous-rich aluminous hornblendes 308
R. Soong and J. A. Olivcrona: An occurrence of cymrite in black shale, north-west Nelson, South Island, New Zealand 311
N. I. Erëmin: Quantitative analysis by means of the laser microanalyser 312
A. B. Poole and A. Thomas: A staining technique for the identification of sulphates in aggregates and concretes 315
P. K. Harvey and C. C. Ferguson: Spherically arranged inclusions in post-tectonic garnet porphyroblasts: discussion of a comment by A. Spry 317
Book reviews 319

[NO. 312, DECEMBER 1975]

J. A. Gard, T. Mitsuda, and H. F. W. Taylor: Some observations on Assarsson's Z-phase and its structural relations to gyrolite, truscottite, and reyerite 325
J. N. Walsh: Clinopyroxenes and biotites from the Centre III igneous complex, Ardnamurchan, Argyllshire 335
T. N. Clifford, E. F. Stumpfl, and J. R. McIver: A sapphirine–cordierite–bronzite–phlogopite paragenesis from Namaqualand, South Africa 347
L. Fanfani, A. Nunzi, P. F. Zanazzi, and A. R. Zanzari: The crystal structure of galeite 357
M. T. Busrewil, R. J. Pankhurst, and W. H. Wadsworth: The origin of the Kennethmont granite-diorite series, Insch, Aberdeenshire 363
Alok K. Gupta and Alan D. Edgar: Leucite–Na-feldspar incompatibility: an experimental study 377
C. D. Curtis, M. J. Pearson and V. A. Somogyi: Mineralogy, chemistry, and origin of a concretionary siderite sheet (clay-ironstone band) in the Westphalian of Yorkshire 385

V. K. Nayak and B. E. Leake: On 'winchite' from the original locality at Kajlidongri, India 395
N. Kinomura, S. Kume, and M. Koizumi: Synthesis of $K_2SiSi_3O_9$ with silicon in 4- and 6-coordination 401
D. K. Bailey and R. Macdonald: Fluorine and chlorine in peralkaline liquids and the need for magma generation in an open system 405
Stephen D. Weaver and Ian L. Gibson: The origin of peralkaline obsidians: a discussion 415
D. K. Bailey and R. Macdonald: A reply 416
I. C. Pringle: An occurrence of hydrothermal fayalite in the epicrustal rocks of the Bushveld Igneous Complex 418
R. Elsdon: Manganoan ilmenite from the Leinster granite, Ireland 419
H. Sekino, K. Harada, K. Nagashima, Satoshi Kanisawa, and Yukihiro Ishikawa: Aluminian xanthophyllite and paragonite from Japan 421
Book reviews 424

[NO. 313, MARCH 1976]

W. Campbell Smith: The Mineralogical Society (1876–1976) 429
A. Livingstone, D. Atkin, D. Hutchison, and H. M. Al-Hermezi: Iraqite, a new rare-earth mineral of the ekanite group 441
M. J. Wilson, P. D. Cradwick, M. L. Berrow, W. J. McHardy, and J. D. Russell: Nickeloan pyroaurite from Leslie, Aberdeenshire 447
A. M. R. Neiva: The geochemistry of biotites from the granites of northern Portugal with special reference to their tin content 453
Colin M. Graham: A note on some Dalradian stilpnomelanes and their oxidation 467
Paul C. Lyons: The chemistry of riebeckites of Massachusetts and Rhode Island 473
J. G. Angus and G. R. Davis: Base metal enrichment in volcanic sublimates and secondary alteration products from Vesuvius and Vulcano 481
Lewis H. Cohen and William Klement, *jr.*: Effect of pressure on reversible solid–solid transitions in nepheline and carnegieite 487
A. Livingstone: A metamorphosed, layered alpine-type peridotite in the Langavat Valley, South Harris, Outer Hebrides 493
M.-A. Kashkai and I. A. Babaev: Clinoptilolite from zeolitized tuffs of Azerbaidzhan 501
B. A. Goodman: The Mössbauer spectrum of a ferrian muscovite and its implications in the assignment of sites in dioctahedral micas 513
F. A. Levi: Thermally induced fractures in olivines of stony meteorites 519
E. R. Vance and P. Routcliffe: Heat treatment of some metamict allanites 521
Bruce W. D. Yardley and J. D. Blacic: Sapphirine in the Sittampundi Complex, India: A discussion 523
B. E. Leake, A. S. Janardhanan, and A. Kemp: High P_{H_2O} and hornblende in the Sittampundi Complex, India 525
Alan C. Moore: Intergrowth of prehnite and biotite 526
G. A. Challis: The Avondale (New Zealand) meteorite discredited 529
M. E. Fleet: Distortion parameters for coordination polyhedra 531
R. J. King and R. N. Wilson: An occurrence of vesigniéite in Leicestershire 533
C. Giacovazzo, S. Menchetti, and F. Scordari: X-ray powder data for caledonite 536
P. J. Bridge: A second occurrence of perite 537
Book reviews 538

[NO. 314, JUNE 1976]

D. E. de S. Jayawardena and D. A. Carswell: The geochemistry of 'charnockites' and their constituent ferromagnesian minerals from the Precambrian of south-east Sri Lanka (Ceylon) 541

J. T. Liyama and M. Volfinger: A model for trace-element distribution in silicate structures 555
S. O. Agrell, H. J. Axon, and J. I. Goldstein: A metallographic and petrological study of metal–silicate fragments in the > 1 mm size range from lunar soil 14162,80 565
Hartmut Schneider: The progressive crystallization and ordering of low-temperature dolomites 579
P. J. Woodford and Allan F. Wilson: Kornerupine in metasomatic zones, Strangways Range, Central Australia 589
G. D. Borley: Ænigmatite from an Ægirine-Riebeckite granite, Liruei Complex, Nigeria 595
S. Menchetti and C. Sabelli: The halotrichite group: the crystal structure of apjohnite 599
Duncan McConnell: Crystallinity among some hydrous aluminium phosphates 609
N. M. S. Rock: Petrogenetic significance of some new xenolithic alkaline rocks from East Africa 611
Pete J. Dunn: Genthelvite and the helvine group 627
A. M. Clark and E. E. Fejer: Zoned genthelvite from the Cairngorm Mountains, Scotland 637
Ahmad Khorassani and Mansour Abedini: A new study of turquoise from Iran 640
E. R. Segnit: Tamarugite from Anglesea, Victoria, Australia 642
E. H. Nickel: New data on woodwardite 644
G. Brumby and T. J. Shepherd: Sample preparation for fluid inclusion studies 647
R. M. Weston and P. S. Rogers: Anisotropic thermal expansion characteristics of wollastonite 649
M. B. Duggan: Primary allanite in vitrophyric rhyolites from the Tweed Shield Volcano, north-eastern New South Wales 652
Book reviews 654

[no. 315, september 1976]

J. R. Ashworth: Petrogenesis of migmatites in the Huntly-Portsoy area, north-east Scotland 661
G. R. Parslow: The Suisnish layered dyke 683
H. W. Haslam, R. R. Harding, and A. E. Tresham: Chromite–chlorite intergrowths in peridotite at Chimwadzulu Hill, Malawi 695
John F. W. Bowles: Distinct cooling histories of troctolites from the Freetown layered gabbro 703
Enver Murad: Zoned birefringent garnets from Thera Island, Santorini Group (Aegean Sea) 715
Richard W. Bild and John T. Wasson: The Lodran meteorite and its relationship to the ureilites 721
B. G. J. Upton, R. Macdonald, P. G. Hill, B. Jefferies, and C. E. Ford: Narsarsukite; a new occurrence in peralkaline trachyte, south Greenland 737
M. N. Chaudhry and R. A. Howie: Lithium tourmalines from the Meldon aplite, Devonshire, England 747
B. Velde: The chemical evolution of glauconite pellets as seen by microprobe 753
A. Livingstone: Julgoldite, new data and occurrence; a second recording 761
F. C. Loughnan and K. R. Steggles: Cookeite and diaspore in the Back Creek pyrophyllite deposit near Pambula, New South Wales 765
Kazumi Yokoyama, Shohei Banno, and Takeo Matsumoto: Compositional range of $P2/n$ omphacite from the eclogite of central Shikoku, Japan 773
Beryl Nashar and Noel C. White: The origin of scoriaceous rock associated with dacitic ignimbrites in the Mirannie–Mount-Rivers district, New South Wales, Australia 781

R. H. VERNON and C. McA. POWELL: Porphyroblastesis and displacement: some textural criteria from pelitic hornfels—a comment 787
D. S. N. MURTHY: Ortho- and clino-pyroxenes from the granulites of Namakkal, Tamil Nadu (Madras), India 788
J. P. PUPIN and G. TURCO: Occurrence of peculiar tabular zircon crystals 790
JOHN M. SINTON: Compositional relationships of Fe-Ni alloy and coexisting phases in serpentinite, Red Mountain, New Zealand 792
G. GHISO and B. MESSIGA: Volborthite in Liguria, Northern Italy 794
Book reviews 797

[NO. 316, DECEMBER 1976]

P. W. SCOTT: Crystallization trends of pyroxenes from the alkaline volcanic rocks of Tenerife, Canary Islands 805
M. C. MAGONTHIER and D. VELDE: Mineralogy and petrology of some Tertiary leucite–rhönite basanites from central France 817
H. J. AXON and W. R. D. COUPER: A metallographic study of the disruption of the Cañon Diablo projectile 827
B. HALFEN: Difference in spectral reflectivity between grains of homogeneous and exsolved titanomagnetite 843
GRAHAM R. CARR, EVAN R. PHILLIPS, and P. R. WILLIAMS: An occurrence of eudialyte and manganoan pectolite in a phonolite dyke from south-eastern Queensland 853
R. N. THOMPSON: Chemistry of ilmenites crystallized within the anhydrous melting range of a tholeiitic andesite at pressures between 5 and 26 kb 857
PAUL BRIAN MOORE: Derivative structures based on the alunite octahedral sheet: mitridatite and englishite 863
S. KARUP-MØLLER: Gmelinite and herschelite from the Ilímaussaq intrusion in South Greenland 867
CLAUDE TRIBOULET: Experimental study of clay mineral, greenschist, and low-pressure amphibole facies in the system Na_2O–Al_2O_3–MgO–SiO_2–H_2O 875
F. L. SUTHERLAND: Tacharanite from Tasmania, Australia 887
R. N. THOMPSON: Alkali amphiboles in the Eocene high-level granites of Skye, Scotland 891
A. LIVINGSTONE, H. G. MACPHERSON, and B. JACKSON: Wroewolfeite and other langite-group minerals from Blackcraig, Kirkcudbrightshire 893
A. M. CLARK, E. E. FEJER, J. D. DONALDSON, and J. SILVER: The ^{119}Sn Mössbauer spectra, cell dimensions, and minor element contents of some cassiterites 895
RODNEY C. EWING: Metamict columbite re-examined 898
G. SCAINI, A. MOTTANA, and K. ABRAHAM: Ferrocarpholite from Colle Ciarbonet (Cottian Alps) 900
M. H. HEY: Twenty-ninth list of new mineral names 903
Topographical index 917
Alphabetical index 921
